# Purpose of event

---

- The purpose of these events is to provide a broad networking platform for African businesses with an ultimate focus on developing and uplifting emerging entrepreneurs and giving an audience to entrepreneurship opportunities within Africa.

*Recent research proves that most African entrepreneurs are significantly disadvantaged when compared to their western counterparts, more so when obtaining the necessary seed capital and gaining access to business start-up accelerators, resource centres, training and mentorship.*

- The principal emphasis of this specific event is to give a platform to African entrepreneurs and allowing them access to influential business people with a focus on entrepreneurial knowledge sharing. The event will provide Africans around the continent the opportunity to network, assist, uplift others and exchange thoughts that embolden building African entrepreneurs in businesses by supporting existing and emerging entrepreneurs in business and the SME arena with financial advisory services, business consultancy services, business strategy services and mentorship.

# Event concept

---

- This event platform looks at giving African businesses an opportunity to engage and network with other businesses, potential investors, business partners and emerging entrepreneurs over a breakfast session in the following event format:
  - Business networking breakfast,
  - Theme: The Entrepreneurial Ecosystem,
  - Keynote Speaker: TBC,
  - Business Panel Discussion: A live streamed discussion with five different CE Level panellists who will provide a platform for multidisciplinary exchange on the discussion topic.

*The event will be rotated quarterly around the African continent, so as to enable delegate accessibility*
